Note....right leg will be out to right at the end of the wall so just step back on right for count 1

There is one restart in the dance. You will start the 9th wall of the dance, and the music will slow down and come to a stop, just continue to count 32 counts and face the front wall and start the dance over again on the front wall. Or you can do it to the original version and just dance it straight through for 5 min. Have fun, made this really easy so you will be ready for my next crazzzzzzzzy one.

Thanks for everything
Guyton
